

Motion with a reason.

A website should move the story forward.

01

SWIPE to EXPLORE

Guide the eye.

Use movement to make the next action easier to understand.

02

SWIPE to EXPLORE

Explain the change.

Show how a system responds, how a product works or how one state becomes another.

03

SWIPE to EXPLORE

Give the brand a moment.

A short 3D piece or brand film can turn a visual identity into a memorable story.

04

SWIPE to EXPLORE

Keep it usable.

Clear content, sensible controls and a useful experience when motion is switched off.

05

SWIPE to EXPLORE

Make an impression.

Explore Capra's web and motion work.
